

VALSERRANO ROSÉ 2020

Comments:

This rosé wine has been made from red Garnacha grapes and a small proportion of Tempranillo, carefully harvested with manual selection in the vineyard.

Vinification & Ageing:

The grapes arrive at the winery with the clusters intact and once they have been destemmed, they go straight into the press. They remain there for a while for the must to drain off and to extract colour from the skins. They are then slowly and gently pressed with very little pressure so as to prevent any unwanted woody flavours and to preserve the salmon-pink colour. We can say it is a "Rosado de Lágrima", a wine made by "bleeding".

Tasting notes:

- **COLOUR:** Salmon-pink. Bright sheen with copper glints.
- **AROMA:** Stone fruit notes like peaches and red liquorice. When swirled in the glass, hints of violets and some herbal notes of basil.
- **MOUTH:** A fresh attack, smooth glycerine sensation as it passes through the mouth, and lively acidity. Reminders of ripe strawberries. A long, flavoursome aftertaste.
